Tin Fung Jewellery Limited, established in 1988, is a leading jewelry manufacturing company based in Hong Kong. They specialize in precious metal trading, casting, refining, and the production of jewelry findings and K gold chains. With their extensive range of products and services, they cater to both retail and wholesale customers.

Their product offerings include K gold chains, Cuban chains, K gold jewelry findings, hollow tubes, elastic metals CNC made items, K gold welding sheets, laser wires, and more. They take pride in their innovative design of accessories buckles for gemstone settings, which are registered and unique in the industry.

EU appearance design patent is obtained

As a member of the Chinese Gold & Silver Exchange (Member No. 70), Tin Fung Jewellery Limited offers a wide range of finessed gold products, including tael, 100/300/500 & 1000-gram packages. Additionally, they provide refinery services for K-gold jewelry, gold, silver, palladium, platinum, and wastage. Their streamlined procedures ensure efficient processing, with a turnaround time of just 2 to 3 working days. They also offer custom-made services, allowing customers to add their logos or trademarks on bullion.

Tin Fung Jewellery Limited also offers a unique one-stop solution for high-value recycling of K gold jewelry. When they collect your K gold jewelry, they ensure the safe removal of stones without causing any damage. They clean and return the stones to you in excellent condition, allowing you to choose between cash or gold after the refining process.

Furthermore, they provide reliable and efficient purity assay services that adhere to international standards. Their ISO/IEC 17025:2017 Laboratory is government-accredited, enabling them to release ISO-accredited analysis reports within 3 business days at competitive prices.

In addition to their jewelry-related services, Tin Fung also extends its business scope to property and safe deposit box rental services. As the largest safe deposit box service provider in Hong Kong, they offer up to 8,000 units of highly secure safe deposit boxes at their own property. Their advanced security devices, including Face ID login, motion detectors, and thermal detectors, ensure the utmost protection for their clients' valuable possessions. Moreover, each safe deposit box is covered by all risk insurance protection provided by Lloyds of London, up to HKD500,000.

Looking ahead, Tin Fung is committed to acquiring talented professionals and advanced hardware to fuel their growth. They strive to provide the best and most reliable services to their extensive client base in Mainland China, Asia, Europe, and the US markets.

Star-studded Celebration for TIN FUNG Jewellery Limited's Star-studded Celebration for TIN FUNG Anniversary

Since its establishment in 1988, Tin Fung Jewellery Limited has earned the trust of its customers for 35 years. In celebration of the company's 35th anniversary, friends from all aspect gathered at the end of 2023 to commemorate this moment. The venue was filled with flower baskets gifted by various friends, each symbolizing friendship and blessings.

Several leaders of the company attended the event and joined Mr. Joe So, the CEO of Tin Fung Jewellery Limited, in the ribbon-cutting ceremony to kick off the celebration. Afterwards, Mr. Joe So and his family performed the lion dance eye-dotting ceremony, signifying the bright vision of prosperity, unity, and cooperation between the company and its family. The following lion dance performance created a lively atmosphere, with the dancing lions moving among the guests' tables. The guests took turns touching the lion's head to welcome good luck and fortune.

While enjoying delicious food, the guests also appreciated the splendid performances by singers. Several well-known artists attended the event and sang classic soap opera theme songs on stage. Guests also took the stage for a chorus performance, expressing their heartfelt blessings to Tin Fung Jewellery Limited and receiving applause from the audience.

To express gratitude to the guests for their presence, the company prepared limited-edition commemorative items, leaving behind exclusive memories of this special day. The 35th anniversary celebration of Tin Fung Jewellery Limited concluded with joyous applause.

全球黃金市場概況

The Overview of the Global Gold Market

黃金用途廣泛,在金飾、科技領域、中央銀行及投資者領域都非常活躍,同時對全球經濟影響深遠。這次我們會概述全球黃金市場的總體情況,分析主要兩大黃金消費國市場表現,並重點說明珠寶行業的黃金需求趨勢。

Gold finds extensive utility across various sectors, including jewelry, technology, central banks, and investor domains, taking a significant role in global economics. In this article, we will present an overview of the global gold market, analyzing the performance of the two major gold-consuming countries and highlighting the trends in the jewelry industry's gold demand.

國際黃金市場概述

根據世界黃金協會(WGC)的數據,過去10年黃金消費量中,用作珠寶首飾的佔51%、金條和金幣佔27%、央行佔10%、作科技產品用途的佔9%,而ETF及其他用佔3%,顯示黃金作為首飾、奢侈品的需求仍然佔主導地位。

2023年全年黃金總需求量(不包括場外交易)為4,448噸,相比需求強勁的2022年減少5%。若包括場外交易和庫存流量(398噸)在內,黃金總需求達到4,899噸,創下歷史最高紀錄。2023年的國際黃金價格持續高企,年底時,倫敦現貨黃金年終價格為2062.40美元/盎司,但卻無阻全球。節消費,穩定保持在2,093噸的水平。

Overview of the World Gold Market

According to data from the World Gold Council (WGC), over the past decade, gold consumption has been primarily driven by jewelry, accounting for 51% of total demand, followed by bars and coins at 27%, central banks at 10%, technological applications at 9%, and ETFs and other uses at 3%. This data indicates that the demand for gold as jewelry and luxury items continues to dominate the market.

In 2023, the total global gold demand for the year, excluding over-the-counter transactions, amounted to 4,448 metric tons, representing a 5% decrease compared to the robust demand witnessed in 2022. When including over-the-counter transactions and changes in inventory (398 metric tons), the total gold demand reached a historic high of 4,899 metric tons. Despite the consistently high international gold prices throughout 2023, with the year-end spot price in London reaching \$2,062.40 per ounce, global gold jewelry consumption remained stable at the level of 2,093 metric tons, indicating the resilience of the market.

2023中國黄金市場走勢

中國作為全球黃金生產與消費第一大國, 近年超越印度成為行業最大、最快增惠的 市場。在經濟放緩、房地產和股市都遭受 重創的情況下,黃金的保值抗跌特點被消 費者視爲一種安全的保值手段,讓黃金長 期處於市場消費榜首。世界黃金協會指中 國2023年金飾消費量同比增長10%,達到 630噸,令「購金熱」再現。

跟據中國報告大廳網訊,中國珠寶市場的市場規模在過去五年以年均20%的速度增長。市場的消費主要集中在黃金珠寶、寶、鑽石珠寶、翡翠珠寶和婚慶珠寶等產品上。黃金首飾設計發揮空間大,款式越來越時尚美觀,適用多種場合等,長期吸引消費者的支持。

隨著經濟的不斷發展,中國珠寶行業產品結構也逐漸產生了變化,行業產品由傳統的黃金,白銀,珍珠也逐漸向智能科技改變。創新技術的應用:珠寶行業正在不斷嘗試與採用新技術來推動產品創新和製造工藝,如3D打印、CAD/CAM設計、AI、區塊鏈等。這些新技術的應用將有助於加快珠寶行業的數字化轉型和智能化進程,帶來更多商業機會。

Trends in the Chinese Gold Market in 2023

China, as the world's largest producer and consumer of gold, has surpassed India in recent years to become the largest and fastest-growing market in the industry. Even amid economic slowdown, significant setbacks in real estate and the stock market, gold's characteristic of preserving value and providing a hedge against market volatility has positioned it as a secure store of value in the eyes of consumers, thus maintaining its position at the top of the market. According to the World Gold Council, China witnessed a 10% year-on-year increase in gold jewelry consumption in 2023, reaching 630 metric tons, resulting in the resurgence of "gold buying fever."

According to Chinabgao, the market size of the Chinese jewelry industry has grown at an average annual rate of 20% over the past five years. The market's consumption is primarily focused on products such as gold jewelry, colored gemstones, diamond jewelry, jade jewelry, and wedding jewelry. Gold jewelry design offers ample room for creativity, with increasingly fashionable and aesthetically pleasing styles suitable for various occasions, which has garnered long-term support from consumers.

With the continuous development of the economy, the product structure of the Chinese jewelry industry has gradually undergone changes, transitioning from traditional gold, silver, and pearls to intelligent technology. The application of innovative technologies is driving product innovation and manufacturing processes in the jewelry industry. Technologies such as 3D printing, CAD/CAM design, Al, and block chain are being continuously explored and adopted. The application of these new technologies will accelerate the digital transformation and intelligent processes in the jewelry industry, bringing more business opportunities.

中國黃金首飾熱潮

隨著人民生活水平不斷提高,消費者對 珠寶的需求也越來越多元化。除了傳統 的黃金和鑽石等貴重材料,消費者開始 注重藝術性、文化性和設計感,創新和 個性化的珠寶產品有更大興趣和需求。

The Gold Jewelry Trend in China

As the standard of living continues to rise, Chinese consumers are increasingly seeking diversified options in the realm of jewelry. In addition to traditional precious materials such as gold and diamonds, consumers now value artistic, cultural, and design elements, showing greater interest and demand for innovative and personalized jewelry products.

While traditional consumers focused mainly on gold purity and price when purchasing gold items, younger consumers are placing more importance on the overall buying experience, craftsmanship, and the stories behind the jewelry. According to a recent survey of 5,000 Chinese consumers aged 18 to 40, reported by the South China Morning Post, over 90% of respondents preferred purchasing jewelry that carries symbolic meaning related to Chinese culture. The World Gold Council's report, based on the opinions of over 500 industry professionals, suggests that products with fashionable and creative designs yield the highest profits. By avoiding mere imitation and integrating national trend elements in a truly innovative and fashionable manner, sustained development can be achieved.

2023印度黄金市場表現及展望

全球第二大黃金消費國是印度,但與世界第一大黃金生產國中國不同,印度龐大的珠寶業幾乎完全依賴進口的貴金屬。在當地,金飾是保值的工具,亦是財富與地位的象徵,也是許多儀式中不可或缺的內容。送贈黃金是印度社會婚慶禮儀中,一個有深厚傳統的部分,婚禮黃金需求在印度每年的黃金需求中佔約50%。

2023年印度黃金需求較上年下降3%, 至747.5噸,為2020年以來的最大學的人工。 以來平,原因是價格上漲至歷史為每時黃金體, 62,305印度屬於一個。 62,305印度屬於 62,305印度屬於 62,305印度屬於 62,305印度屬於 62,305印度屬 62,305印度 62,305阳度 62,305阳 62,305阳度 62,305阳度 62,305阳度 62,305阳度 62,305阳度 62,305阳度 62,305阳度 62,305阳度 62,

Performance of the Indian Gold Market in 2023

India, the world's second-largest consumer of gold, differs from China, the largest gold producer, as its vast jewelry industry relies heavily on imported precious metals. In the local context, gold jewelry serves as a tool for preserving value, a symbol of wealth and status, and an integral part of many ceremonies. Gifting gold is deeply rooted in Indian social and wedding customs, with wedding-related gold demand accounting for approximately 50% of India's annual gold demand.

In 2023, Indian gold demand declined by 3% compared to the previous year, reaching 747.5 metric tons, the lowest level since 2020. This decline can be attributed to the surge in prices to historic highs, which limited the demand for gold jewelry. Currently, the price of gold stands at approximately INR 62,305 per 10 grams. The World Gold Council's Indian Market Report, released at the end of 2023, suggests that the current environment of elevated gold prices may curtail India's physical gold demand. It is expected that domestic gold consumption in India will be primarily driven by demand for bridal jewelry, while impulsive purchases of everyday jewelry may face limitations. However, in the face of global geopolitical and economic uncertainties, India's domestic economic growth prospects remain positive, and the continuous inflow of domestic investments may support the investment demand for gold in India.

Winning Jewellery (HKV) Co., Ltd. sime 1970

9K / 14K / 18K Gold / 925 Silver Clasps and Findings (China Factory) Wholesale Only

High end products for brand jewelry customers (Logo Promotion)

Winning Jewellery, one of the largest manufacturers of clasps and findings in Asia founded in 1970. Near half a century, with skilled and energetic labour, the company has become a well-known jewellery wholesaler and exporter in the market.

Winning Jewellery lays emphasis on product quality, innovation and designs. The company attributes the key of success to their reputation in jewellery industry, together with the use of excellent quality raw materials and high-technology machineries; as well as the effort of its skilled workers. They have enlarged their market not only in Hong Kong and Mainland, but also in Asia, Europe, Australia, USA and South Africa.

Currently, we mostly focus on the production of clasps and findings that can be made from Silver, 9K, 14K and 18K Gold. Moreover, we can produce bracelets, earrings, pendants and rings that can fit into different sizes of Culture Pearls, Fresh Water Pearls and South Sea Pearls. Furthermore, our silver jewellery can be plated with 18K gold and rhodium, which is nickel-free. Over 10,000 species of jewellery products, in which 50% of them are silver items and the remaining are gold merchandises. As a result, we think our products can fulfill different customers' demand and we will keep on producing more fashionable and trendy design jewellery in the future.

Singapore International Jewelry Expo 2024 International Jewelry, Gems & Luxury Timepieces Exhibition

11-14 Sands Expo & Convention Centre Halls A & B, Level 1 SINGAPORE

Singapore's most prestigious and longest-running jewelry show, the Singapore International Jewelry Expo (SIJE) is the largest show in Singapore targeted at local and international trade and direct buyers and investors.

Backed by 18 years of experience, we have earned our place as an important showcase for local and international jewelers, designers, manufacturers and exporters to reach out to key buyers in Singapore, ASEAN and beyond.

Join us today!
