9K / 14K / 18K Gold / 925 Silver Clasps and Findings
(China Factory) Wholesale Only

High end products for brand jewelry customers (Logo Promotion)

Winning Jewellery, one of the largest manufacturers of clasps and findings in Asia founded in 1970. Near half a century, with skilled and energetic labour, the company has become a well-known jewellery wholesaler and exporter in the market.

Winning Jewellery lays emphasis on product quality, innovation and designs. The company attributes the key of success to their reputation in jewellery industry, together with the use of excellent quality raw materials and high-technology machineries; as well as the effort of its skilled workers. They have enlarged their market not only in Hong Kong and Mainland, but also in Asia, Europe, Australia, USA and South Africa.

Currently, we mostly focus on the production of clasps and findings that can be made from Silver, 9K, 14K and 18K Gold. Moreover, we can produce bracelets, earrings, pendants and rings that can fit into different sizes of Culture Pearls, Fresh Water Pearls and South Sea Pearls. Furthermore, our silver jewellery can be plated with 18K gold and rhodium, which is nickel-free. Over 10,000 species of jewellery products, in which 50% of them are silver items and the remaining are gold merchandises. As a result, we think our products can fulfill different customers' demand and we will keep on producing more fashionable and trendy design jewellery in the future.

Having been established for 51 years, Yuen Kee Ho takes pride in its manufacture of different kinds of high-quality jewelry accessories and equipments. A leading supplier of jewelry appliances based in Hong Kong, Yuen Kee Ho is an agent of various international brands, such as Yasui, EnvisionTEC, OROTIG, among others. The company believes in the importance of high quality, competitive prices and prompt delivery. It respects customers who demand outstanding high-quality suppliers, keeping an eye on quality which is highly valued by the company, as reflected in every aspect of its products, such as designs, price and service.

Yuen Kee Ho offers a wide spectrum of equipments, including rapid prototyping machine, pressure casting machine, welding machine, magnetic tumbler, etc. Using the state-of-the-art equipments, the company adopts technologies of its own to create the supreme products for its clients. Yuen Kee Ho also specialises in producing customised products that are in accordance with clients' specific demands, ensuring them to be able to find exactly what they are looking for.

YASUI Vacuum Pressure Casting Machine K2NEXT 16000

K2NEXT 16000

Model	VPC K2NEXT 16000	
Description	Vacuum Pressure Casting Machine K2NEXT 16000	
Casting system	Vacuum pressure casting system Max.pressure 0.3 MPa, with internal gas tank	
Replacing gas	Single gas (Argon)	
Program memory	100 memories	
Control	Specially designed micro-processor control. Temperature control by PID with accuracy of +/- 2 degrees centigrade.	
Heating	Induction heating (with specially designed metalstirring function)	
Oscillation	10 kW	
Cooling water	Tap water direct cooling system more than 3 L / min, more than 1.5 kgf / cm ² , Less than 30 °C	
Flask	Flask is elevated by the air cylinder to secure tight gas sealing and, as a result, perfect atmosphere separation of in-&out-flask.	
Max.flask size	Standard: 125 mm dia. x 230 mm (H)	
	Option: 125 mm dia. x 300 mm (H)	
Crucible volume	242 cc	
Max.castingamount	Volume	150 cc
	Weight	24K: 3.0 Kg
		18K: 2.3 Kg
		14K: 2.1 Kg 925Ag: 1.5 Kg
Shot maker	Option (Shot Maker SM1)	
Data output	Option: USB Memory (2 - 16 GB)	
Max.temp.	K-type	1,200 °C
	R-type	1,450 °C
Ultimate vacuum	0.1 to 10 hPa (depends on the vacuum pump)	
Vacuum filter	Hight mesh, replaceable from the front panel	
Power source	380 V +/- 10 %, 50 / 60Hz 3 phase, 11 kVA	
Net weight	Approx. 250 Kg	

envisionTEC Desktop Rapid 3D Printer Series

Vida HD cDLM

System Properties

- Compatible with all design software able to produce an STL output.
- Changeover between materials is quick and easy with no waste.
- Plug and play with an easy to use software interface.
- Very few moving parts guarantees a strong and reliable production system.

Machine Properties	Vida HD cDLM
Building Envelope	3.54" x 1.97" x 3.94" (90 x 50 x 100 mm)
Resolution in X and Y	0.002" (50µm)
Dynamic Resolution in Z (Material dependent)	0.0006" to 0.006" (15µm to 150µm)
Light Source	Industrial UV LED
Data Handling	STL
Warranty	1 Year Included

Striving to satisfy every customer's request and thus to earn their trust, Yuen Kee Ho offers diversified and one-stop service. In addition to customisation of equipments tailored to meet individual requirements, the company is also pleased to provide its clients professional knowledge about the appliances as well as their usages. The follow-up services of Yuen Kee Ho are dedicated to fulfil clients' specific needs and expectations. It is the commitment of Yuen Kee Ho to please every customer with the best service guaranteed.

Diversifying its product range, Yuen Kee Ho has extended its mastery in producing jewelry accessories, in particular gold solders for goldsmiths and jewellers, plating solutions and materials, as well as gold accessories. In the future, Yuen Kee Ho will remain committed to expanding the diversity of its products so as to meet up with various market demands.

OROTIG Laser Machine Series

RR PICO

Machine Properties	RR PICO
Power Supply	1-ph,230±10%VAC,50/60Hz
Laser Source Type	Multi-diode pumped fiber(Yb)laser(Class 4)
Wave Length	1030nm
Power	50W
Work Surface Dimensions	355x320mm
Working Area	57x57mm
Cooling System	Forced air and water cooling system
Maximum Power Consumption	1000W

EVO X

Machine Properties	EVO X
Power Supply	1-ph,115-230VAC±10%,50/60Hz,16A
Max Pulse-power and Duration	225J at 25mS
Peak Pulse-power	9kW
Avarage Power	90W
Frequency of Repetition	0.5 to 15Hz
Spot Size	0.1 to 2mm
Stereomicroscope	45° with 10X and crosshair or LYNX
Pulse-Shaping programs	5, preset
Programmable Memory-cells	32
Weight	41-43Kg
Dimensions (W x D x H)	51.0 x 79.3 x 55.3 cm

REVO X

Machine Properties	REVO X
Power Supply	1-ph.230VAC±10%, 50/60Hz, 10A
Type of crystal	Nd:YAG @ 7 mm
Power impulse and time	240J at 25mS
Peak Pulse-Power	10kW
Avarage Power	90W
Frequency of Repetition	40Hz
Spot Size	From 0.1 to 2mm
Access controls	External with 7" color touch-screen display. Internal with joystick
Stereomicroscope	45° with 10X and crosshair or LYNX
Weight	65 kg
Dimensions (W x D x H)	60.0 x 97.2 x 59.0 cm
Cooling type	Liquid cooled(10 liter) with forced ventilation

德國OTEC全自動拋光機

型號: FLEX
拋光時間: 20分鐘
產能: 80只戒指/20分鐘
夾層、石底拋光, 鑽石格外閃亮
鑲嵌款式直接拋光, 不損鑽石和寶石
輕鬆拋光幾何複雜形狀的精致珠寶
環保, 無氰化物磨料, 不含腐蝕性酸

意大利OROTIG激光焊接機

型號: Revo X OROTIG制造 質量印章
脈沖功率: 240J
Leica 10倍立體顯微鏡, 減小眼部勞損
集成工業4.0, 生產進度和產能分析
設備穩定, 耐用, 珠寶行業首選
安全認證: CE、FDA、RoHs

高品質激光打標機(桌上型)

型號: MARKING 30
激光功率: 30W
打印範圍: 110 x 110 mm
激光波長: 1064nm
打標最小線直徑: 0.02mm
打印軟件: EzCAD2
配旋轉打標台和回收裝置
冷卻方式: 風冷安全認證: CE、FDA、RoHs
保修2年 價格: RMB 42,800.00(含13%稅)

日本Yasui回轉式焗爐

型號: RBF21, RBF37 安井制造 質量印章
鋼盅在轉盤的每個部分都能理想地均勻受熱,轉盤轉動會對爐內的氣氛產生攪拌作用,加熱器的輻射會隨機反射,通過這種技術,所有的鋼盅在相同溫度下加熱,而不管在爐膛的任何位置設備
斷電恢復功能,蠟鑲貨型過熱保護系統
8段升溫程序,20個程序存儲
溫度跟蹤和監控,確保完成最佳的設置燒結溫度
配有二次燃燒器,環何無氣味,確保員工安全健康

日本Yasui真空離心鑄造機

型號: VCC 30A 安井制造 質量印章
雙擺臂離心鉑金鑄造,獲得最佳填充
複雜珠寶結構鑄造,密度高,沙窿少
穩定,耐用,是創造珠寶品質的首選
鉑金、鈀金精密鑄造的理想選擇精確的鑄造溫度,±2°C溫度控制

日本Yasui真空吸索鑄造機

型號: K2 NEXT 8000 安井制造 質量印章
功率: 4.8KW (沒有出口管制)
複雜珠寶結構鑄造,密度高,沙窿少
穩定,耐用,是創造珠寶品質的首選
新開發的加熱系統,精確的鑄造溫度
可變加熱輸出控制,減小鋅合金蒸發
DeGas專利技術,最大限度減小非填充
減小執模、拋光的人工和損耗

Nano系列便攜CVD鑽石批量檢測儀

Nano和Nano+便攜型鑽石/CVD/HPHT批量檢測儀是一個創新的儀器，小巧輕便，易於攜帶和托運，客戶可以在購買鑽石的現場進行快速檢測，篩選出自己可以確認的天然鑽石再進行購買。

Nano和Nano+也同樣適合於在一些工作空間緊湊的場所中使用，其供電方式靈活，耗電量極低，用一個大容量的充電寶，可以連續工作許多天。

Nano和Nano+檢測準確，速度快，很多海外實驗室都在使用EzView系列檢測儀檢測鑽石、CVD、HPHT。

為什麼選擇Nano和Nano+?

這是一台真正便攜型的儀器，尺寸只有手掌大小，重量很輕，可以放在隨身的背包中，並且可以用充電寶供電。如果乘飛機，儀器內部沒有電池，可以空運到任何地方。

儀器的準確度非常高，基於光譜分析原理，檢測更直觀。所以很多國外的實驗室都選用的是EzView系儀器。

儀器和手機之間無線連接，使用起來簡單方便。檢測的時候，手機放在儀器上的固定位置；查看結果的時候，可以把手機拿起來，隨意翻看，執行放大等操作。

檢測速度非常快，只要十幾秒就能完成檢測。

小儀器，大測試區域。可以批量檢測裸石和珠寶成品，包括戒指、耳釘、耳環、手鏈、項鍊，等等。

多種供電方式，可以使用交流電220V/110V供電，也可以使用充電寶供電。

操作非常簡單，只需要手機無線連接儀器，運行相應的App，點擊測試，就會自動完成檢測。

規格:

型號	Nano	Nano+ (手鐲檢測)
有效測試區域	80*60mm	80*75mm
樣品倉尺寸	85*70mm	85*85mm
樣品類型	裸石、戒指、項鍊、耳環、等等	裸石、戒指、手鐲、項鍊、耳環、等等
最小樣品尺寸	0.001 Carat	0.001 Carat
軟件	Android	Android
電源	AC220V/110V/DC5V	AC220V/110V/DC5V
機器尺寸	120*120*110 mm	120*120*160 mm
重量	1.38公斤	1.75公斤

Tin Fung Jewellery Limited, established in 1988, is a leading jewelry manufacturing company based in Hong Kong. They specialize in precious metal trading, casting, refining, and the production of jewelry findings and K gold chains. With their extensive range of products and services, they cater to both retail and wholesale customers.

Their product offerings include K gold chains, Cuban chains, K gold jewelry findings, hollow tubes, elastic metals CNC made items, K gold welding sheets, laser wires, and more. They take pride in their innovative design of accessories buckles for gemstone settings, which are registered and unique in the industry.

EU appearance design patent is obtained

As a member of the Chinese Gold & Silver Exchange (Member No. 70), Tin Fung Jewellery Limited offers a wide range of finessed gold products, including tael, 100/300/500 & 1000-gram packages. Additionally, they provide refinery services for K-gold jewelry, gold, silver, palladium, platinum, and wastage. Their streamlined procedures ensure efficient processing, with a turnaround time of just 2 to 3 working days. They also offer custom-made services, allowing customers to add their logos or trademarks on bullion.

Tin Fung Jewellery Limited also offers a unique one-stop solution for high-value recycling of K gold jewelry. When they collect your K gold jewelry, they ensure the safe removal of stones without causing any damage. They clean and return the stones to you in excellent condition, allowing you to choose between cash or gold after the refining process.

Furthermore, they provide reliable and efficient purity assay services that adhere to international standards. Their ISO/IEC 17025:2017 Laboratory is government-accredited, enabling them to release ISO-accredited analysis reports within 3 business days at competitive prices.

In addition to their jewelry-related services, Tin Fung also extends its business scope to property and safe deposit box rental services. As the largest safe deposit box service provider in Hong Kong, they offer up to 8,000 units of highly secure safe deposit boxes at their own property. Their advanced security devices, including Face ID login, motion detectors, and thermal detectors, ensure the utmost protection for their clients' valuable possessions. Moreover, each safe deposit box is covered by all risk insurance protection provided by Lloyds of London, up to HKD500,000.

Looking ahead, Tin Fung is committed to acquiring talented professionals and advanced hardware to fuel their growth. They strive to provide the best and most reliable services to their extensive client base in Mainland China, Asia, Europe, and the US markets.

Discovering Infinite Possibilities and Business Opportunities

with Extensive Applications of 3D Printing

Since its establishment in 2015, "Hong Kong 3D Printing Association" (HK3DPA) has been dedicated to connecting industries and communities of all ages and backgrounds to explore the potential of 3D printing and promote the applications of the technology in a greater spectrum. 3D printing has been rapidly developing and is no longer used simply for prototyping, but also as a tool of creativity and innovation for business opportunities. To keep abreast of the market trends, the Association organizes diverse activities, such as exhibitions, workshops and seminars, to share the latest market news about 3D printing technology as well as to promote the promising future of related applications to different industries and communities.

Mr. Calvin Wu, Chairman of HK3DPA

Creating New Business Opportunities

"The common misconception is that 3D printing is producing simple plastic shapes.", commented Mr. Calvin Wu, Chairman of HK3DPA. The process of 3D printing is more complex and sophisticated than it may sound or how it is currently perceived by most people. In view of this, the Association has the vision to create new business opportunities of 3D printing by showing and educating the public the concepts and applications of the technology, including 3D design, 3D modeling and 3D scanning, and how these can be developed and extended into different business sectors in a commercially sustainable way. With its substantial knowledge in 3D printing and unique insights into the market, the Association aims to develop business opportunities by inspiring innovation and sharing the convenience and enjoyment of the technology.

Hong Kong 3D Printing Association 4th Committee Inauguration Ceremony 2021

Supporting the Next Generations

HK3DPA highly values the local youth development and understands the importance of cultivating talents from young age. The Association constantly encourages local young people and start-ups to make use of 3D printing and related applications to express their creativity and transform their ingenious ideas into products through extensive workshops and training courses. The Association will continue to actively collaborate with different industries and communities in pursuit of stimulating the local youth development in 3D printing; as Chairman Mr. Wu added, “subsequently, this could help the young people discover their passions or inspire them to create something impactful.”

3D Printing Applications in Industries

With technological advancement and promotion in industrial applications, 3D printing has been growing mature and increasingly applied in various industries. The toy industry is one of which that has embraced the technology in earlier years. 3D printed toys can be personalized with customers' needs, with shorter time and lower cost required to produce. 3D printing is versatile and utilized to make toy spare parts and repair broken toys as well.

Meanwhile, jewelry making is another industry that has adopted 3D printing to increase the productivity and efficiency. For instance, the jewelry industry creates patterns for investment casting and complex designs with 3D printing. Compared to the traditional pattern making techniques, 3D printing significantly reduces the production time and cost.

It is evident that 3D-printed materials are becoming applicable and valuable to more fields. 3D-printed metal implants, for example, demonstrate how 3D printing can be applied in the medical domain. The technology in medical application enables customized and high-precision surgical tools and implants, providing alternatives or even solutions to medical needs.

Given the infinite possibility in 3D printing, the technology is also applied in marine conservation. 3D-printed terracotta reef tiles are created to facilitate coral restoration and save the degraded marine ecosystems. With 3D printing related applications, the reef tiles can be custom-made with the best and most suitable materials and designs for the highest efficiency in saving the marine life.

Looking Forward

Despite its achievement in promoting 3D printing, Hong Kong 3D Printing Association will strive to keep exploring the potential of the technology and continue to be the platform of connecting different industries and communities to popularize 3D printing in the future. Through comprehensive activities and training, together with the technological improvement, the Association aspires to share with the public about the relevant applications of 3D printing to inspire their innovation and creativity as well as to pave the way for the technology in Hong Kong.

DIAMOND MILLING MACHINE FCT 202

for the perfect surface treatment
of wedding rings

FCT 202 is a horizontal and vertical milling machine specially designed to process wedding rings with diamond tools. Good processing and a simple control guarantee the best results in surface processing. The versatile adjustment possibilities of all axes result in an inexhaustible number of patterns and combinations. The use of diamond tools gives you a perfect gloss finish immediately. The plant is built on the long-established base of Posalux machines.

Type	FCT 202
Dimensions	130 x 81 x 175 cm
Weight	400 kg
Speed	10.000 rpm
Connection	400V, 50/60 Hz
Processing	Horizontal and vertical
Control	Semi-automatic
Basis	Posalux
Microscope	10-x
Programs	Satining, channel milling, diamond cutting, milling

COLPO & ZILIO

Handmade in Italy

Colpo & Zilio S.p.A. is a well-known manufacturing jewellery company situated in Vicenza (Italy), highly specialized in the realization of jewellery clasps in 18kt, 14kt, 9kt and 8kt, in silver and most of them in platinum as well. All the clasps are suitable for necklaces and bracelets, for pearls strands, for semi- precious stones and also for every kind of chain.

We've been working for over 30 years in the jewellery market and we became a key point in the clasps selling to the main jewellery brands all over the world.

Our collection boasts about a wide range of different articles (about 4000) but there's also the possibility to customize the clasps under commission, according to the customer's design idea.

The company can satisfy every request through its R&D department which combines, in every product, beauty and service ability with brand new technology in projecting and prototype designing.

Also, our Production Dept. has been recently improved through more flexible processes and high qualified staff; we can then guarantee high-quality products and the delivery of purchase orders within about 15 days.

Please have a look at it and feel free to contact us for any kind of information you may need about our products: our Export office assistants will be available to give you all the details about prices, product technical features, actual delivery times.

LEGOR Group Hong Kong

Email: info_hongkong@legor.com

Legor Group S.p.A. 從1979年開始致力於珠寶生產和加工的市場。

本公司專注於補口，電鍍藥水和焊料的生產。我們提供的補口適用於不同的工序（倒模和機械加工）和不同金屬的生產過程（黃金，銀，鉑，鈀）；而我們的電鍍藥水（銻，黃金，鈦，鈹...）提供裝飾性和保護性的表層（防氧化，耐磨）；我們提供的焊料可符合不同工業的需求。我們重視客戶並了解他們的需求，將其轉化為高質量的產品。長久以來客戶的滿意度是我們優越表現的實證。

選擇 Legor Group，意味著能夠依靠擁有跨國組織企業的穩固性、意大利製造產品的技術和可靠性。本公司在香港和內地的分部直接引入意大利總部的產品提供給本地的客戶，以確保產品的質素。最重要的是，我們不只是出售產品，更提供一切技術支援給於客戶。我們將隨時為覆蓋全球的客戶提供優質的產品和服務。

We would like to introduce our company Legor Group S.p.A that has been in Jewellery industry since 1979.

Our company is working continuously on master alloy, plating solution and brazing alloy. We provide master alloy which could be used in different process(casting and mechanical working) with different metals(Gold, Silver, Platinum and Palladium); And our plating solutions(Rhodium, Gold, Ruthenium, Palladium...)is designed for both decoration and protection(anti-tarnish, non-scratch); And our brazing materials designed to meet all sorts of industrial soldering needs. We aim to provide high quality products to meet all the needs of customers. We have been an established company with an excellent track record for the best customer satisfaction.

Choosing Legor Group means being able to rely on the solidity of a company with a multinational organization and the technology and dependability of a Made in Italy product. Our Hong Kong branch introduces Italy Headquarter's product to local customers which ensure the quality and availabilities. Most importantly, we are not only selling products but also providing professional technical supports to our customers. Legor Group offers quality products and services around the globe at any time.
